Reports will be emailed unless specified otherwise. Faxed or Posted reports may incur an additional charge (please indicate if you would prefer this): Fax / Post	
Recording Duration (circle): 24h / 48h / 7 days	
The Holter monitor is an expensive specialised digital recording device. It is NOT waterproof. Patients should be carefully observed whilst wearing it and appropriate precautions taken to prevent damage. For damage sustained during the rental period, the cost of repair or replacement	
will be charged to the practice (more details available on our website). To provide peace of mind we offer additional accidental damage cover which is available at the time of order placement. In this case there will be no charge for damage but non-returned monitors will still be charged in full (£1800+VAT).	
Would you like to add accidental damage cover for the Holter monitor at £19.00?	
Holter monitors are supplied with a HeartVets HolterVest for optimum recording quality, monitor protection and patient comfort. These can be re-used for subsequent recordings.	
Please indicate if you DO NOT wish to use a HeartVets HolterVest	
Fax completed form to 01453 808490 or email to diagnostics@heartvets.co.uk
